

WELCOME to Select Eyecare - Loganville

Select Eyecare LLC

Dr. Alisa Burnett

Doctor of Optometry

About Your Insurance

There are two types of health insurance that can help pay for your eye care services and products. You may have one (or both) and our practice may accept both.

1. Vision Care Plans (VSP, Eyemed, Spectera, etc)

Vision Care Plans only cover 'routine' vision exams and often provide a contribution towards contact lenses or eyeglasses. Vision plans cover a basic screening for eye disease. Vision plans do not cover diagnosis or treatment of eye diseases.

2. Medical Health Insurance (Anthem BCBS, United Healthcare, Medicare, ect.)

Medical Health Insurance may be used if you have eye health problems (dry eyes, itching, floaters, cataracts, ect.) or systemic health problems that have ocular complications. Your doctor will determine if these conditions apply to you, but some are determined by your case history. Medical insurance rarely covers the refraction (testing to determine your eyeglass prescription). Our current fee for refraction is \$35.

If you have both plans, it may be necessary for us to bill some services to one plan and other services to another. We will do this in the best way to minimize your out-of-pocket expenses.

We will bill your insurance plan for services if we are a participating provider for that plan. We will try to obtain advanced authorization of your insurance benefits so we can tell you what is covered. If some fees are not paid by your plan, you are responsible

If we do not participate with your particular plan, you will pay our usual and customary fees at the time of service and you may file with your insurance to get reimbursed for utilizing our office as an out-of-network provider.

We appreciate your confidence and trust in allowing us to serve you. To help serve your best, it is the patient's responsibility to inform us what plans you have before your appointment.

I have read and agree with these policies.
